

## notes

- everything is static - add animations
- missing logo in browser tab
- dynamic webpage w/ hamburger menu
- plan to recode everything in react
- admin sign in (?) - flexibility to edit events and blog

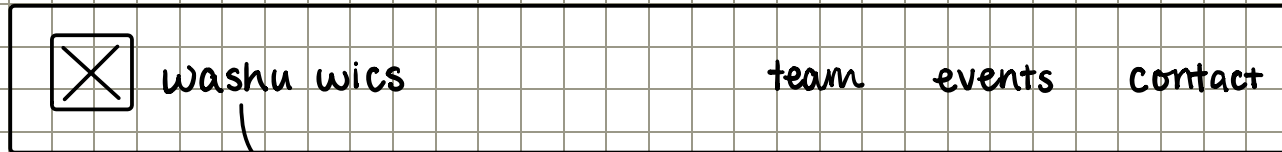

- ① push react website from local computer to github branch
- ② deploy using vercel or firebase hosting
- ③ change domain

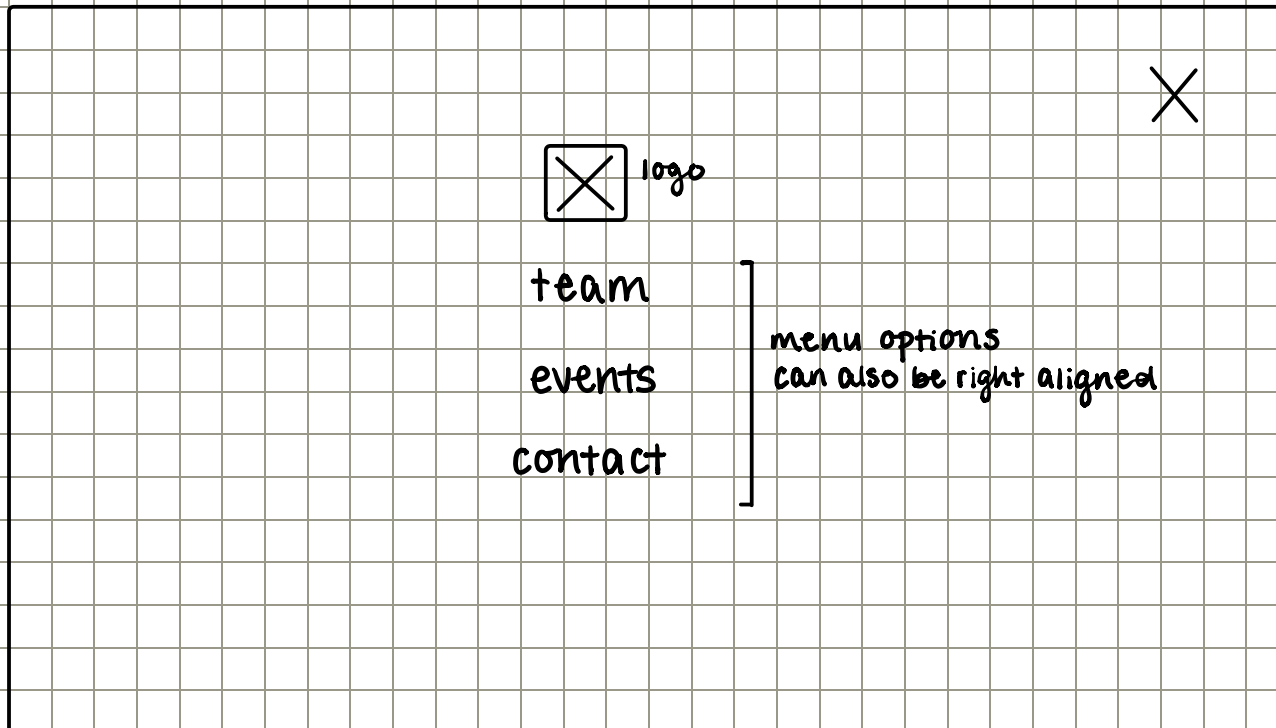

NAVBAR

shadow  
(if we make the navbar sticky)

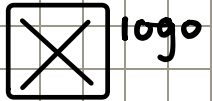

do we want this text or no?
